

Technical Specifications

[Print Details](#)

Product:	Recessed Stubby Terminal Contact, Gap size up to 3/4", 3/8" Dia.
	
Description:	The 1125T Series "Stubby" Press Fit Magnetic Contact with terminal connections is a 3/8" diameter switch designed specifically for applications where space is limited. The 1125T Series short length makes it ideal for thin framed windows and doors where longer units cannot be used.
Color	Natural white
	<hr/> Mahogany Brown
Contact Configuration	N.O.
Diameter[Nominal]	0.375 in
Electrical Configuration	Normally Open
Enclosure Material	ABS Plastic
Flange Diameter[Nominal]	0.438 in
Lead Length[Nominal]	1.0 in
Lead Type	#22 wire
Loop Configuration	Closed Loop
Maximum Current	0.5 A
Maximum Voltage	100 VAC/DC
Mounting Option - Magnetic Contacts	Recessed
Notes	Gap distances are nominal-- make distance + or - 20%. Gap specifications are for switch to make. Break distance is approximate
Operating Temperature[Minimum]	-40.0 °F
Operating Temperature[Maximum]	150.0 °F
Power (Watts)[Maximum]	7.5 VA
Terminal Connection	Terminals accept 14-22 gauge wire
UL Rating	UL
	<hr/> ULC
	<hr/> cULus
Width[Nominal]	0.438 in
