

PRODUCT FOCUS

VARIMOT® Friction-Disc Drives

OVERVIEW

SEW-Eurodrive's mechanically-adjustable gear units deliver straightforward operation and robust performance in applications requiring mechanical stepless speed variation.

PRODUCT RANGE

- Power ratings from 0.5 to 15 HP
- Output speeds up to 2235 rpm
- Output torques up to 64,800 lb-in.

STANDARD FEATURES

- Combine with SEW speed reducers for variable-speed applications requiring low output speed and high output torque
- Speed variation may be performed manually by means of a handwheel, or electro-mechanically using a servo-motor
- Foot or flange mounted configurations
- May be used without reduction as a direct machine drive

SEW-EURODRIVE
Driving the World

SEW EURODRIVE

PRODUCT FOCUS

For more than 50 years, SEW-Eurodrive has been industry's global supplier of choice for innovative, reliable gearing and high-performance motors. We are also one of the world's leading suppliers of electronic drives. Wherever things need to be moved – that's where you'll find SEW-Eurodrive.

SEW gear units are legendary for their outstanding performance and uncompromising quality, and for the vast selection of modular options and power ratings available to meet the requirements of virtually any application. Installed in all major industrial sectors, our drive products continue to set new quality standards globally for meeting today's advanced power transmission challenges.

In our nine global manufacturing centers, we build SEW drive components and modules to exactly the same specifications and tolerances. However, final assembly and custom modifications are performed in our 56 regional assembly plants, located close to our customers

in 40 countries around the world – so here in North America you can rest assured you're getting exactly the same drives, no matter where your equipment is going into operation.

What's more, being in close contact with our customers enables our sales engineers and technical specialists to provide knowledgeable applications and project planning assistance, as well as complete startup and training, at your site. And of course, all SEW-Eurodrive products are backed by our industry-leading 24/7 support program, should you ever require service.

SEW-Eurodrive. Driving the world – with innovative products, systems and support that deliver superior performance for your power transmission application.
